

AUTO CUTTING MACHINE LWQ2000-8000B

Characteristics:

- The main frame of this machine is welded from square profile steel with strong structure, high strength and no deformation. This machine applies converter speed governing, which makes stable moving, and large range of step-less speed governing accordingly. Guide-rail drive makes cutting trim and flat. It applies motor-decelerator integrating system, which lowers the noise, has high practical value.
- This machine has horizontal, vertical cutting devices. It is applicable to block cutting.
- Voltage: applies large power transformer, which promotes the speed of cutting and lengthens service life. This machine applies cutting retract device, which can shorten 3-10 mins when replace.

TECHNICAL DATA:

CUT HORIZONTAL AND SIDEWAY AUTOMATICALLY, VERTICAL MANUALLY.

ITEM		LWQ2000B	LWQ3000B	LWQ4000B	LWQ6000B	LWQ8000B
Max Cutting Size (mm)		2000x1250x1300	3000x1250x1300	4000x1250x1300	6000x1250x1300	8000x1250x1300
Heating wire	Transverse	80pcs	80pcs	80pcs	80pcs	80pcs
	Vertical	30pcs	30pcs	30pcs	30pcs	30pcs
Working Speeding		0-1.8min/m	0-1.8min/m	0-1.8min/m	0-1.8min/m	0-1.8min/m
Connected Load		21kw	21kw	21kw	21kw	21kw
Overall Size		2800x1900x2500	4800x1900x2500	6800x1900x1250	8800x1900x1250	10800x1900x1250
Weight		1000kg	1600kg	1800kg	2200kg	2600kg
